

## \$900 For 5 1-2 Acres

### In the Heart of Ysleta

The best things we can tell you about this investment falls far short of its real merits.

Prove this now by a personal inspection.

Any well bought, well situated property on the interurban is a non-losable investment—but sometimes circumstances force a piece of property on the market at a price that means a quick and substantial profit for the purchaser. This is the time, and Ysleta is the place. If you are looking for a certainty you have found it.

Let us show you in our autos at once.
